Much has been written about money-how to invest, save, become a millionaire, get out of debt, find financial freedom, change the monetary system, manage a business, hedge or save taxes. So what makes this book stand out from those already in the bookshops? Written for lay reader and expert alike, 30 Lies is a response to a newly emerging trend, where peoples' interest in money is not just to try and make more of it. But to understand better the causes of the increasingly contradictory money world they find themselves in. Some of the issues: income inequity, increasing stress in making ends meet, decay of social systems, evaporation of pensions, polarisation of wealth, third-world indebtedness, Enrons and more. This book promises a simple understanding of these issues. But it goes further. This book not only exposes misleading flaws and "lies" in many universally accepted and unquestioned assumptions about money-it dissolves them! Things they didn't say after reading this book: "Anyone interested in the truth must buy this book." George W. Bush "This book has been very helpful. Now I know for sure there is nothing in the world more important than money." Deepak Chopra "Great book-turns economics on its head." soroS egroeG "This explains it-why God has gone bankrupt and we're still in business." Pope John Paul II "Peter Koenig-They should lock him up and throw away the key!" Dermot Fitzpatrick
