FILM PRODUCTION TECHNIQUE (FPT): CREATING THE ACCOMPLISHED IMAGE, 6e, is aimed at the basic production course taken by radio/tv/film majors. FPT, 6e, delivers a technical and aesthetic introduction to media production that couples video production techniques with strong emphasis on incorporating motion picture film into a project's workflow. The text serves as a primer for all students, but is especially valuable to those students with limited background in the field of media production. FPT, 6e explores cutting-edge technologies as well as traditional Hollywood techniques, covering lighting, cameras, editing, crew organization, and the production process. It also lays out the basic, conventional approach to scene structure in a straightforward and methodical manner.
