Dracula Chronicles: Empire of the Crescent Moon Victor Foia

Dracula is certainly among the best-known men in the world, yet arguably the least understood. While many stories have been told about both the real and the fictional Dracula, Foia's account benefits from four decades of research and the unique perspective of a Transylvanian native. Under Foia's pen, the "Dracula Chronicles" finally pierces the veil of mystery that has shrouded the Wallachian king for over 500 years. The multivolume historical novel unfolds in vivid detail Dracula's epic metamorphosis from a naïve and trusting prince to the ruthless law-and-order king whose deeds have spawned the most enduring vampire legend. Taking place on the backdrop of the dying Middle Ages and the blossoming of the Renaissance the "Dracula Chronicles" is replete with towering passions, unbridled ambitions, vile betrayals, and righteous revenge. And, as one would expect, blood.

Book Two of the series, "**Empire of the Crescent Moon**", follows young Prince Vlad, a.k.a. Dracula, on his journey into the heart of the Ottoman Empire. Soon he comes to regret his impulsive decision to cross the Danube into the world ruled with absolute power by Sultan Murad of the House Osman. It is a world in which nothing is what it seems, and where mortal danger lurks around every corner. Away from his native land of Wallachia, where he could rely on martial skills and friends, now Dracula has only his wit to sustain him. As things go from bad to worse, help comes to Dracula from a most unexpected quarter.
