Ever wondered how twins can sense each other, even when they are on the other side of the world? Or thought about why you suddenly think of someone you haven't seen for ages and then they call you on the phone – how does that happen? Have you ever experienced or heard of animals predicting earthquakes or even “sniffing” out cancers – what makes them do this? Religion and prayer seem to produce some intriguing miracles – can science explain this? And then there is paranormal activity and superstitions – are they real and if so what is going on that we don't understand?
