*****Today, you can get the prequel story "318" for FREE here: AutumnKalquist.com (Just copy and paste into your browser.)*****

A brutal conspiracy threatens humanity's survival.

Three hundred years ago, the Earth died, and the last humans fled. Beaten. Broken in more ways than one. But there was something they couldn't leave behind: The Legacy Code--mangled genes that force them to abort half their unborn children.

When Era and Dritan Corinth get placements on the safest ship in the fleet and win a chance to have a child, they feel lucky. Until the day Era's supposed to find out if her baby has the Defect, and the ship suffers a hull breach. An investigation uncovers new threats: Dangerous secrets. Lies. Treason. Era begins to question everything she's been taught about the fleet, their search for a new Earth, and the Defect. But the answers she seeks were never meant to be found...

Legacy Code is a suspenseful and dark genetic engineering science fiction series that has earned five star reviews from fans of some of the best sci-fi and fantasy books like *Hunger Games*, *Divergent*, and *Red Rising*, and has been compared favorably to *Wool*, *1984*, and the new *Battlestar Galactica*.

"Addictive sci-fi series. I haven't been this hooked on an author since Anne McCaffery's *Killashandra* series." ~ Marie Hall, *New York Times* and *USA Today* Bestselling Author

What Readers are Saying:

"One of the best books I've ever read, I can't wait to read the rest of the series."

"Space, spaceships, planets, wormholes, dystopian, pregnancy, oh my! I thoroughly enjoyed Legacy Code. It was a quick read for me, as I found it hard to put down. After the first few chapters I was hooked & couldn't get enough... A great mix of SciFi & Dystopian! One of my top favourite reads for 2014."

"Compelling post-apocalyptic novel about survival: Wow. That was... astounding. I really enjoyed reading this... Living in space inside space ships? Holograms? Post-apocalypse? Heck, yeah!"

"I cannot get enough of the Fractured Era series. It's the best sci-fi series I've read since *The Post-Human* series by David Simpson."

"...An uncertain future has the colonists on edge, leading to acts of terrorism and assassination attempts on government officials... There are several intriguing elements at play, most significantly, the mystery of the Legacy Code and whether it holds the key to humanity's survival...I'm looking forward to continuing the series to see where it goes from here."

"A couple of chapters in and I was already hooked! I ended up staying up til midnight (as a mother of a toddler this is a rare occasion) in order to finish it."

"I just finished this book...at 6:00 AM. This society crafted by Autumn Kalquist is fascinating. I can't even

imagine how much time she spent carefully plotting every detail. Their existence feels so real and so frighteningly possible."

"It kind of had an initial feel of Battlestar Galactica -- a civilization that has to abandon their planet and go in search of a new one. ...It had mystery, a bit of a thriller like aspect, humor, and a taste of romance."

"I both love and hate this book...but in a good way! Instantly I fell in love with the characters and storyline that Kalquist spun together...This story is based in the future (almost a space opera / dystopian) where the populations of earth escaped to space to find a better world. ...we arrive in a distant future where civilization exists on space ships and they have to take decades before making jumps across space -similar in a way to what I imagine Stargate"

"It pulled me in faster than most books I have read and kept me on the edge of my seat through the end. I read it all in just a few hours.

Charles Bock:

As we know that book is important thing to add our understanding for everything. By a reserve we can know everything we wish. A book is a set of written, printed, illustrated or perhaps blank sheet. Every year seemed to be exactly added. This reserve Legacy Code (Fractured Era Series Book 2) was filled with regards to science. Spend your extra time to add your knowledge about your scientific research competence. Some people has different feel when they reading some sort of book. If you know how big good thing about a book, you can feel enjoy to read a book. In the modern era like currently, many ways to get book that you wanted.

Lindsay Washington:

As a scholar exactly feel bored to be able to reading. If their teacher inquired them to go to the library or make summary for some book, they are complained. Just minor students that has reading's soul or real their hobby. They just do what the teacher want, like asked to the library. They go to there but nothing reading critically. Any students feel that reading through is not important, boring along with can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore , this Legacy Code (Fractured Era Series Book 2) can make you experience more interested to

read.
