Bang!: How We Came to Be Michael Rubino

"Bang! And that was it, the beginning of everything."

So begins this beautifully illustrated, panoramic story of evolution. Author and illustrator Michael Rubino conveys not only the facts but also the excitement of the scientific explanation of our world, from the origin of the universe in the big bang to the present reality of our planet, teeming with life but threatened by overpopulation and pollution.

Parents looking for an easy-to-understand guide to the scientific worldview for their children will find the perfect source here. The formation of stars and galaxies; the origin of our solar system and planet Earth; the epochal march of life from single-celled organisms through sponges, worms, insects, fish, dinosaurs, birds, and early mammals; and the evolution of the first humans from their simian cousins—it's all here.

This book is an eloquent blend of art and science that tells the most important story so far known.

From reader reviews:

Karen Imes:

What do you concentrate on book? It is just for students as they are still students or it for all people in the world, what best subject for that? Just simply you can be answered for that question above. Every person has several personality and hobby for every single other. Don't to be forced someone or something that they don't wish do that. You must know how great and important the book Bang!: How We Came to Be. All type of book are you able to see on many options. You can look for the internet options or other social media.

Michelle Curry:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their down time with their family, or their particular friends. Usually they doing activity like watching television, likely to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your own free time/ holiday? Might be reading a book might be option to fill your free of charge time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to try out look for book, may be the book untitled Bang!: How We Came to Be can be fine book to read. May be it is usually best activity to you.

John Tovar:

Bang!: How We Came to Be can be one of your beginner books that are good idea. We all recommend that straight away because this book has good vocabulary which could increase your knowledge in language, easy to understand, bit entertaining but delivering the information. The copy writer giving his/her effort to place every word into joy arrangement in writing Bang!: How We Came to Be but doesn't forget the main place, giving the reader the hottest in addition to based confirm resource information that maybe you can be considered one of it. This great information could drawn you into new stage of crucial contemplating.

Louis Trent:

As a student exactly feel bored to help reading. If their teacher asked them to go to the library or even make summary for some guide, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that looking at is not important, boring as well as can't see colorful pics on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Bang!: How We Came to Be can make you experience more interested to read.
