Math Games: 180 Reproducible Activities to Motivate, Excite, and Challenge Students, Grades 6-12

Judith A. Muschla, Gary Robert Muschla

Math Games offers a dynamic collection of 180 reproducible activity sheets to stimulate and challenge your students in all areas of math - from whole numbers to data analysis - while emphasizing problem solving, critical thinking, and the use of technology for today's curriculum! Each of the book's activities can help you teach students in grades 6 through 12 how to think with numbers, recognize relationships, and make connections between mathematical concepts. You pick the activity appropriate for their needs . . . encourage the use of a calculator . . . or provide further challenges with activities that have multiple answers. Designed to be user friendly, all of the ready-to-use activities are organized into seven convenient sections and printed in a lay-flat format for ease of photocopying as many times as needed.

From reader reviews:

Lucile Brown:

The book Math Games: 180 Reproducible Activities to Motivate, Excite, and Challenge Students, Grades 6-12 has a lot of information on it. So when you read this book you can get a lot of help. The book was compiled by the very famous author. The author makes some research previous to write this book. This kind of book very easy to read you can get the point easily after perusing this book.

Ethan Scott:

This Math Games: 180 Reproducible Activities to Motivate, Excite, and Challenge Students, Grades 6-12 is great guide for you because the content and that is full of information for you who have always deal with world and still have to make decision every minute. This book reveal it data accurately using great organize word or we can claim no rambling sentences in it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only gives you straight forward sentences but hard core information with wonderful delivering sentences. Having Math Games: 180 Reproducible Activities to Motivate, Excite, and Challenge Students, Grades 6-12 in your hand like getting the world in your arm, data in it is not ridiculous one. We can say that no e-book that offer you world within ten or fifteen minute right but this book already do that. So , this is good reading book. Hey Mr. and Mrs. busy do you still doubt in which?

Larry Carvajal:

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library or make summary for some guide, they are complained. Just very little students that has reading's internal or real their passion. They just do what the instructor want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that reading through is not important, boring in addition to can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. So , this Math Games: 180 Reproducible Activities to Motivate, Excite, and Challenge Students, Grades 6-12 can make you feel more interested to read.

Larry Artz:

What is your hobby? Have you heard that question when you got learners? We believe that that problem was given by teacher with their students. Many kinds of hobby, Every individual has different hobby. Therefore you know that little person including reading or as reading through become their hobby. You have to know that reading is very important as well as book as to be the issue. Book is important thing to increase you knowledge, except your teacher or lecturer. You get good news or update regarding something by book. Different categories of books that can you choose to adopt be your object. One of them is actually Math Games: 180 Reproducible Activities to Motivate, Excite, and Challenge Students, Grades 6-12.
