Excerpt from Austria-Hungary: The Polyglot Empire

First, a disclaimer. This is not a mere war book. There have, if anything, been too many of these. All necessarily suffered from the deficiencies of war books. The material had been more or less hurriedly gathered; personal prejudices warped judgment; the view was restricted, and so were the sources of information on which it was based; lastly, haste was again the dominant feature in the final task of writing. The result was, perhaps, readable, but could scarcely be termed dependable.

During the four years I resided in Austria - 1912 till a few months ago I - enjoyed full opportunities of studying land and people at close range. Trips to Hungary and to the Austrian provinces enabled me to supplement or revise this knowledge on important points. The war came. Again there was a total shifting of scene, a complete alteration in modes of thought and action, in aims confessed. I lived close to these people, as one of themselves in most essentials; through trying days and weary months sharing with them the crust of bread as well as their joys and sorrows; looking into their hearts, hearing them speak and moan and weep. I saw some actual fighting. I witnessed some hunger riots. Of some of these things and others indeed, the book has a word to say.

Among the books that have appeared in the recent or more remote past dealing with the chief aspects of the Dual Monarchy, the author recalls none that set out along the same path or with the same purpose.
