Coming Into Being: Artifacts and Texts in the Evolution of Consciousness William Irwin Thompson

In his best-selling *The Time Falling Bodies Take to Light*, William Irwin Thompson intrigued readers with his thoughts on mythology and sexuality. In his newest book, *Coming Into Being: Artifacts and Texts in the Evolution of Consciousness*, he takes the reader on a journey through the evolution of consciousness from the preverbal communications of early stone carvings, to the writings of Marcel Proust, around the monumental wrappings of Christo and up to the rebirth of interest in the Taoist philosophy of Lao Tzu. Owing as much to the rhythmic constructions of jazz as to established methods of scholarship, Thompson plays a riff on biology and culture seeing the birth of the mind in Proust's Madeleine, the displacement of humanity in Christo's wrapping of the Reichstag and, in Lao Tzu's *Tao Te Ching*, the path forward to a new planetary culture. In *Coming Into Being*, William Irwin Thompson presents a fascinating vision of our past, our present, and our future that no one will want to miss.
